Summary

I am a Front End Web Developer who codes and creates the visual front-end elements of software, applications and websites for clients using HTML, CSS, JavaScript, WordPress and Adobe Creative Suite. Fluent in Brazilian Portuguese and English, proficiency in Spanish.

Technical Skills

Languages: HTML, CSS, JS

Frameworks/Libraries: Bootstrap, WordPress, Backbone.js

Other: Git/GitHub, Gulp, Brackets, Adobe Creative Suite.

Project Experience

Website Optimization - github.com/JappN/p4-web-optimization

February 2016

- Optimized critical rendering path of existing website to achieve PageSpeed Insights score above 90 for both mobile and desktop.
- Eliminated inefficiencies in the website's scroll animation. Site now scrolls at 60 frames per second.

Arcade Game Clone - github.com/JappN/p3_arcade_game

January 2016

- Clone of the classic game, Frogger. Udacity provided the art assets and game engine.
- Coded player, enemies, and other game entities in JavaScript's object-oriented pseudo-classical style.

WordPress Website - kylewillets.com/rise365

December 2015

- Created website in WordPress, as per layout provided by graphic designer.
- Customized HTML, CSS and paypal payment gateways.

Work Experience

Shutterstock/BigStock - Image Curator - New York, Team Remote Position

November 2014 - present

- Enhance the image bank by evaluating images based on technical and legal compliancy.
- Review and evaluate 3,000-4,000 submissions/week, and make the decision to either accept, decline or return images back to authors for further revisions.

Natasha Japp Digital - Freelance web designer and developer - Denver, CO

2009 - present

- Develop web presence for several companies using WordPress, HTML, CSS and JavaScript.
- Fix bugs and update several websites to be responsive, using modern web concepts in order to drive additional business to clients.
